

Chinese Institute of Engineers - USA  
**NEW MEXICO CHAPTER**

## **ACES-NM/CIE-NM 2017 2<sup>st</sup> Meeting & Seminar**

**10 am-12:30 pm, Saturday, April 8, 2017**  
**Room B116 UNM Domenici Center for HSC**  
**(see attached map for a driving direction)**

**Lunch provided**

**Please RSVP to Dr. Chun Fu's email: [fcfuchun@yahoo.com](mailto:fcfuchun@yahoo.com) by Thursday, April 6, 2017 for head count**

**10:00-10:15 am Sign-in & registration**

**10:15-10:20 am Introduction**

**10:20-11:20 am**

### **Allergy and Clinical Immunology**

Shanze (Sam) Wang (王山泽), MD, PhD  
Allergy Partners of Albuquerque, NM

**Abstract:** Dr. Wang will explain the concepts of immune system, immune response, antigen, and then allergy, immune deficiency and autoimmune disease. He will discuss in more details about the common environmental allergies, including allergic rhinitis, allergic conjunctivitis, and asthma. Then he will talk about food allergies in more details. He will also discuss briefly about a few skin disorders related to allergies, such as eczema (allergic dermatitis), hives (urticarial) and swelling (angioedema). Drug allergies are also common, and some drugs could be tested. Some gastrointestinal (GI) disorders are related to food allergies and also environmental allergies. Many people have reactions to bee stings or ant bites. Anaphylaxis means severe or systemic reaction and is an emergency. Patients should carry epinephrine auto-injectors (Epipen or Auvi-Q or generic) all the time. Immune deficiency is a relatively rare but severe disorder, and patients should be evaluated and managed by an allergist/immunologist.

**Biography:** Dr. Wang obtained his MD in 1984 at Second Military Medical University, School of Medicine, Shanghai, China, and Ph.D. in 1999 in Clinical Immunology at Flinders University, South Australia. From 1999 to 2006, he was a Postdoctoral Fellow for 2 years, and then a Faculty as an Associate Scientist at the Asthma and Immunology Program, Lovelace Respiratory Research Institute, Albuquerque, NM. He returned to clinical track in 2006, as a Resident Physician of Internal Medicine at UNM, and then did his Fellowship in Allergy and Immunology from 2009 to 2011 at National Jewish Health and the University of Colorado, Denver. He got back to Albuquerque, in 2011 and joined Allergy Partners of Albuquerque, and has been working as an Allergist and Clinical Immunologist.

**11:20-12:20 am (in Mandarin Chinese)**

### **Interior Design**

**Christopher Tracy**  
In-house interior designer, American Home

The topics will include:

1- Design basics: walk thru the design process - floorplan, focal point, fusion, function, plan, quality;

- 2- Walk thru styles: modern, mid-century modern, traditional, transitional (eclectic), traditional, classic;
- 3- Quality vs. value: investing in furniture that fits your lifestyle, quality, brands and customization;
- 4- Working with a designer: Expectations, assistance in fusing styles together, accessories, soft goods, space planning, fabric options.

**Biography:** Christopher Tracy is a professional interior designer who handles anything from small residential color consultations to large commercial renovations. Born and raised in New Mexico, he earned a Bachelor of Fine Arts from UNM. After finishing his bachelor's degree, he earned an AAS in Interior Design from Santa Fe Community College. Christopher's personal style is diverse and eclectic—he favors Mexican folk art, American colonial antiques, and modern twists on the traditional. However, he's well-versed in all design idioms, and is always ahead of the trends. Currently he holds a position at American Home as their in-house interior designer.

### Driving Directions:

1. Take I-25 south to exit 225 (Lomas Blvd). Merge onto Frontage Rd.
2. Turn left onto Lomas Blvd.
3. Turn left onto Yale Blvd.
4. At traffic roundabout, continue straight to stay on Yale Blvd.
5. Park car in M-Lot on right side of Tucker and walk east to the Domenici Center on the corner of Stanford Dr. and Marble Ave.
6. Look for directional signs to find the room
